Technical specifications

Coverage: EU28

Population: 10 294 Europeans aged 16–30 years

Methodology: Face-to-face

Fieldwork: 9–25 April 2016, survey conducted by TNS opinion

Note

During the fieldwork for the Special 85.1 EB of the European Parliament devoted to the perceptions and expectations of Europeans and the fight against terrorism, which will be published during June 2016, 27 969 respondents were interviewed. This survey also includes a part focusing on young Europeans. For this 10 294 young people aged 16–30 were interviewed.

Readers are reminded that the results of a survey are estimates, the accuracy of which, everything being equal, depends on the sample size and the observed percentage. For around 400 interviews (a sample size often at Member State level for surveys of young people), the real percentage, i.e. if the whole population had been interviewed, fluctuates between the following confidence intervals:

Observed	10% or 90%	20% or 80%	30% or 70%	40% or 60%	50%
percentages					
Margins of error	+/- 2.9 points	+/- 3.9 points	+/- 4.5 points	+/- 4.8 points	+/- 4.9 points
